

1. how k-love serves me as a resident of oklahoma community? well it lets us know whats going on around the city or state. what other churches are doing.

2. the effect on the local community if k-love were to be displaced by an lpfm broadcaster providing other programming?

I listen to k-love allday at work on my drive to work and home. at home I listen i love the scriptures, encourageing words. another station couldnt do for me what klove has done. i get to worship god all day and all night. thay have 5 full time pastors that we can call 24 hours a day or night.

3. why you believe that eht service provided by klove is in the public interest? well since klove is listener supported. god uses this station for his purposes. and satan cant stand that so many people gets help for everyday issues. just to have someone to talk to anyhour of the day is priceless. it does in so many ways. but most of all god has annoited this ministerie. the powers of darkness cant prevail against it.

i only pray that i have answered all the questions. I love my klove would be lost without it.

thank you crystal heller.
